Certifications:

SAHPRA Licensed & GMP Certified
Documentation Available on Request

Gorilla Glue is a hybrid weed strain made from a genetic cross between Chem's Sister, Sour Dubb, and Chocolate Diesel. This strain is 37% sativa and 63% indica. "Gorilla Glue", also known as "Original Glue" or "GG4", is a potent strain that delivers heavy-handed euphoria and relaxation, leaving you feeling "glued" to the couch. Its chunky, resin-covered buds fill the room with pungent earthy and sour aromas inherited from its parent strains.
