

Original Blitz "OB"

Original Blitz is a sativa-dominant hybrid cannabis strain that is known for its potent effects and uplifting buzz. The effects are quick-acting and potent, with a cerebral buzz that is both energizing and euphoric. It is a great strain for those who need a burst of creativity or focus and can be useful for combating fatigue or depression. The high is long-lasting, but without the sedative effects that are commonly associated with indica strains.

CANNABINOID PROFILE

Represents sampled levels, with natural variation to be expected.

THC: ~25% **CBG:** ~1.1%
CBD: ~0.3% **CBC:** ~0.5%

Euphoric

TERPENE PROFILE

Represents sampled levels, with natural variation to be expected.

D-Limonene

peppery, spicy, balsam, hoppy

Beta-Caryophyllene

musky, spicy, cannabis

Beta-Myrcene

earthy, musky

FLAVOR CONTRIBUTION

MEDICINAL POTENTIAL

- uplifting
- anti-inflammatory
- analgesic
- anti-oxidant

- anti-inflammatory
- dietary

- sedative
- anti-anxiolytic

NOTEWORTHY PROPERTIES

May have a synergistic effect for cannabinoids by increasing the permeability of the blood-brain barrier.

Research shows this terpene may have a role to play in managing diet and inflammation.

Shows potential for reducing the growth and proliferation of cancer cells in lab studies.
